CFDs and rolling spot in Foreign Exchange and Digital Assets are complex instruments and come with a high risk of losing money rapidly due to leverage. Trading in these instruments may not be suitable for all investors. Before deciding to trade CFDs and rolling spot in Foreign Exchange and/or Digital Assets, you should carefully consider your objectives, financial situation, and level of experience and risk appetite. The possibility exists that you could sustain a loss of some or all of your deposited funds and therefore you should not speculate with capital that you cannot afford to lose. You may be liable for losses that exceed the amount of margin that you post with us. You should therefore consider whether you understand how these instruments work and whether you can afford to take the high risk of losing your money.
